Liberty Common School  
Principal Casey Churchill

Dear Casey:

I am formally applying for a position on the Liberty Common School Board of Directors. It would be an honor to be elected and serve with fellow Liberty parents in leading the strategy and executing the school's mission to continue improving upon the excellence that Liberty delivers to its students.

I believe that a great education like that provided by Liberty should be accessible to all children. It should be fact-based using the Core Knowledge sequence and classical curricula. It should encourage and challenge all levels of ability to improve. It should also include character and values education to enable students to thrive at school, life and future work. Students must take an active role in their education for continual learning and growth. Parents must also be directly involved both in supporting the school and their children's learning. The decisions about how best to execute the school's mission should be directed by parents via the school's board and implemented by the administration and teaching staff. The freedom to hire excellent teachers, mentor them and pay based on their performance is key to successfully executing the school's mission.

Sincerely,
